ROCHESTER, N. Y., Oct. 23.

MY DEAR SIR: Your rapid response to my request for 20,000 tariff cards is very appreciated. They came to hand this morning and I have put them in the course of general distribution. We are endeavoring to go through the ranks of all the working classes here. The cards are distributed systematically, street by street, at each house. We hear from them daily in many ways, and their enthusiasm is great. Our work is now an inspiring, glorious work of the kind effectively. Of course, large quantities are also distributed to workingmen who call for them and hand them to their fellow-workmen in every part of the country. The result is that perhaps more than could be expected, even in the same form, it is full of meat, and that is important to every man who labors at the bread and butter side of the campaign. Yours truly,

A. S. MANN.

A dry goods dealer of Hawley, Penn., writes:

DEAR SIR: I notice by your TRIBUNE that you have sent out some tariff cards. We are to have a mass-meeting here next Monday evening, which will be addressed by the Hon. Galusha A. Grow. If I had time I would distribute them to the vital question of just without chance, and we gladly join in the cause of the good of our workmen generally.

LETTERS FROM MANUFACTURERS.

FURTHER EVIDENCE OF GENERAL INTEREST IN THE WORK DONE BY THE TARGET CARDS—COMMUNICATION CALLED OUT BY THE TRIBUNE ARTICLES.

J. & W. LYALL were again called upon by a TRIBUNE reporter on Saturday evening. "The demand for 'tariff cards' is in no wise abating," said William Lyall. "We have published about 500 of our cards since you were here last, and yet we have a great many requests to be complied with yet. Many of those who write, I think, confound our cards with the smaller English and German cards issued by Mr. Cooper. They ask, for instance, for '100 of our cards for distribution among the men.' Our cards are not adapted for distributing to individuals but for hanging up in the shops and mills. However, we always gladly send a few of them in answer to every request, and then the people who send them can understand the matter. There have been many calls for cards to-day, and a number of letters. Only a little while ago we received a telegram from Cheney Brothers, the great silk manufacturers of Hartford, Conn., asking for some of the 'campaign tariff cards.' In a private letter from Cheney Brothers, the cards are referred to, and also the articles published in THE TRIBUNE. This telegram followed closely upon the heels of the letter: 'I care for them, here are some of the letters received to-day, which touch upon the "new department" of our business. I declare, we shall almost feel lonesome after all this is over, and the demand for the cards is extinguished by the end of the campaign.' 'Here is a letter we have just received, to which I wish to call your attention particularly':

MERCHANTS and WORKERS!

Now is the time to protect your own interests. Read the TRIBUNE and the FIFTH DISTRICT.

Which is to you of interest?

THE DEMOCRATIC PLATFORM, adopted by the Cincinnati Convention, says:

TARIFF FOR REVENUE ONLY."
